Chase Original Design

PULL STATION SWITCH GUARD

MODEL PSGH 652

Chase Security Systems, Inc is a specialist in manufacturing security metal & wire enclosures and pedestals for the Fire, Security, Computer, Sound, Food Processing, Forestry, Communications and Telecommunications industries.

We draw from over 25 years of experience selling to distributors and OEM accounts. Chase steel, wire & pedestal products are manufactured in a variety of sizes, styles and finishes.

Chase wire enclosures are provided with one hinged mounting wire frame and four wire-formed eyelets for a solid installation. Constructed of quality steel wire .3065 in diameter, welded at all points for strength.

Designed for Prisons, HUD Projects, Universities, Hotels, Parks, Schools, Hospitals and other public locations.

Chase **1-piece wire enclosures** provide for ease of installation and maintenance of equipment once installed. Unit can be provided with electrical provisions for conduit pipes of all sizes.
